

December 9, 2017: Crazy Chemistry

Calling all chemists! Join us as we get elbow deep in some cool science. We will investigate the three states of matter, the scientific method, the properties of dry ice, and all sorts of chemistry. Find out what happens when you combine two special liquids. The result is not what you expect! You will take home your own special creation.

January 13, 2018: Start the Year with a “Pop Bang Fizz”!

To begin 2018, our young scientists will participate in some fun hands-on science activities. Join us to experience Film Canister Rockets, Fireworks in Milk, Spin Art, and the making of Fizzy Bath Bombs to take home.

February 10, 2018: Weather is a Wonder

Join us to dip your toes into the science of meteorology. Discover what causes various weather-related events, such as tornadoes, hurricanes, snow storms, and mountain avalanches. Our young meteorologists will make their own snow, experiment with tornado tubes, and have lots of fun while learning about the weather.

Session times: 9am—noon. For Ages: 6-11

Location: Southeastern Chester County Refuse, 219 Street Road, West Grove, PA 19390

To register for these Saturday programs, please call Science Explorers at 610-816-5047.

Please note: This program is possible because of a partnership between SECCRA and The SPARKS Foundation! The cost is only \$10 per child for each Saturday session.

A limited number of spots are available for these programs; so call today!
